

GB-CrownWire MaxiPac™

GB-CrownWire MaxiPac™ is a unique product, the world's first stitching delivered in drums. GB-CrownWire MaxiPac™ is specially designed for printing with very high demands of trouble free stapling. GB-CrownWire MaxiPac™ delivered in drums at about 550/250 lbs/kg, the increased amount of wire leading to a considerable increase in productivity with a minimum of stops for maintenance and wire replacement.

Our special manufacturing process allows the wire to come out straight and without resistance from the drum, which means trouble free feeding, precise positioning, and that the drums can be placed up to 35 yards from the stitcher.

GB-CrownWire MaxiPac™ works very well in any stitchers on the market. For applications with special requirements in terms of the thickness of material to be stitched, GB-CrownWire MaxiPac™ can be delivered in a special version GB-CrownWire MaxiPac-Power™.

The octagonal shape makes the GB-CrownWire MaxiPac™ unique. The empty drum can be folded and providing great space saving compared to standard circular drums.

In GB-CrownWire MaxiPac™ we took advantage of our long experience in the wire know-how, to provide a product with unique features. Our specially developed manufacturing process ensures a product with stringent quality standards, all this result in a product which always shows the same excellent features.

GB-CrownWire MaxiPac™ is manufactured at our plant in Grytgöl, Sweden, and here we have used our extensive experience in the wire know-how to provide a product with unique features. Our specially developed manufacturing process ensures a product with stringent quality standards, which means that GB-CrownWire MaxiPac™ always has the same excellent features.

Product information

Packaging:

GB-CrownWire MaxiPac™ is delivered in drums made of environmental friendly cardboard. The special EcoPac™ consists of no metallic parts and is totally recyclable. For trouble free production we recommend our special developed despooling equipment GB-9775, which comes complete with hood, linear and necessary couplings. For smooth handling and change of drums we recommend our trolley GB-9776 and our lifting device GB-9799.

Packaging	Weight (kg/lbs)	Diameter ØD (mm/inch)	Höjd ØH (mm/inch)	Pcs/pallet
W250 drum	Aprox. 250/550	520/20,5	830/32,7	4

Dimension:

All drums can be delivered in the following dimensions (mm/inch).

0,50/0,020	0,55/0,022	0,60/0,024	0,67/0,026	0,70/0,028	0,75/0,030	0,80/0,032
------------	------------	------------	------------	------------	------------	------------

Mechanical properties:

	GB CrownWire MaxiPac™	GB CrownWire MaxiPac-Power™
Tensile strength (N/mm ² /PSI)	Aprox. 900/130 000	Aprox. 1200/170 000

Quality:

Grytgöls Bruk is certified according to SS-EN ISO 9001:2008.
